Dear Dave:

Thanks for your letter of 3/12, which I regret I have time to answer only briefly at the moment. Most of the things you mention sound familiar, but I will be checking.

To call Schiller a fink is to flatter him. He is so without scruple or conscience, he is a danger to anyone who associates with him. I don't know whether he is writing a book, but a book that is an enlargement of the World-Journal-Tribune piece, "The Scavengers", is due by Dell Publications this month. His information about the classification of housekeeping files is generally correct. I have been too busy to work on them.

If you do anything further on the Altgens picture, I have gotten Jones Harris a color picture of hhe shirt and will have a number of black-and-whites myself.

Can you amplify your statement on your interest in Liebeler's statements?

Ask Vince about Specter's statements.

Why did Liebeler attack you by name? Did he allude to my appearance on the Lomax show?

Can one of you keep me posted on ~~Emkk~~ Bill's health? Thanks.

Sincerely,

Harold Weisberg
